To Whom It May Concern:

This letter is in reference to the sealcoat maintenance provided by Miller Sealcoating to our high school this summer. Reavis High School is a four-hundred and eighty square foot building on a ten acre campus. We have nine parking lots of various sizes. Our school Board has approved all of our sealcoat needs to be serviced by Miller Sealcoating.

Miller Sealcoating provided to us a plan to complete all work without any inconvenience to our many programs that we have in the summer at a large high school. The work was completed in a timely fashion without any interruptions to the start of the 2008 school year. All employees of Miller were professional on the job. They adjusted to any and all of our needs with our parking lots. This was a big asset for us.

The most important factor in Reavis High School using Miller Sealcoating is twofold. The quality of their work is outstanding. The charges for their quality work are competitive with all other proposals we have reviewed.

Please contact me with any questions.

Sincerely,

Timothy J. Smith
Principal
Facilities & Operational Services
